PROFILE

I'm a passionate and motivated junior web developer currently studying Information and Communication Engineering at the Institute of Technology of Cambodia. I enjoy building responsive and user friendly websites using HTML, CSS, JavaScript, and frameworks like Tailwind CSS and Next.js. I'm now looking for an internship opportunity where I can apply my skills in a real world environment, learn from experienced developers, and grow both technically and personally. I believe this internship will help me gain valuable experience, improve my teamwork and problem-solving abilities, and prepare me for a future career in web development.

Experience

2023-2024 School Project	**Practices Data Structure and Algorithm** Built a student enrollment management system in C++ to perform CRUD operations on student records using linked lists. Data can be saved/loaded from CSV for persistent storage. Helped improve understanding of data structures in real-world use
2024-2025 Self Learning and School Course	**Expert Foundation Website** I have experience creating responsive and user-friendly websites using HTML for structure, CSS (including Tailwind) for styling and layout, and JavaScript for interactivity, DOM manipulation, and dynamic behavior in real-world projects.
2024-2025 Self Learning	**Framework Web Development** Used Tailwind CSS and Next.js to design responsive, modern web applications with clean UI and structured layouts. Focused on improving performance, routing, and API integration.

Education

2017 - 2020	**Wat Phnom Secondary School**
